

Senators:

I am writing to OPPOSE SB184. There is no need to change or reword the current absentee voting laws. Using COVID 19 as an excuse to continue mass absentee voting ballots is wrong, unnecessary, wasteful and against the CT constitution. If people cannot vote in person for their specific illness they can request an absentee ballot, there is NO reason to mail ballots to everyone in CT. Using the wording to be open ended to reflect ANY illness and not just a personal illness is sneaky at best and dangerous for election fraud at worst. We need to secure our election process in CT to fair and increase the checks and balances to deter election fraud, not promote it.

No excuse mail in voting is a waste of millions of dollars of taxpayer dollars. The only reason I can see that this is even being proposed is to encourage voter fraud! VOTE NO!
